BESPOKE CONSULT REPORT

With access to ASEAN corporate registry data, Handshakes provides customised consultancy reports for due diligence, risk assessment, or to meet regulatory compliance. Reports can cover Ultimate Beneficial Owners (UBO), uncover hidden or high-risk connections, and screen for RED list or PEP sanctions, tailored to business requirements.

Data Delivery

API Integration

Retrieve maps and reports via API in JSON and PDF formats.

Custom or Bulk Data

Custom extract or full dataset delivery via SFTP to meet your unique business needs.

Cloud

Access Handshakes' ASEAN private company and financial data through cloud for smarter business insights.

Reach out to our consultants for more information or customisation.

Release: October 2025

About Handshakes

Handshakes empowers businesses to operate safely by unlocking hidden insights through advanced visualisation tools and analytics that unravel ownership structures, integrating public and private data for stronger KYC and enhanced due diligence. As the leading aggregator of ASEAN and China private company data, we drive AI-powered workflow automation to deliver trusted corporate intelligence.
